Supply Chain Manager, Asia

Interbuild Far East (HK) Ltd. is a Hong Kong based company dealing within wood related products like wood commodities, furniture, garden furniture and flooring.

Our customers are world leaders within DIY- and Furniture Retailing, Wood Distributors, Carpentry Factories as well as Building Contractors.

Our Supply chain starts at about 70 different factories supplying various finished products to us, normally on a FOB base, with containers then being delivered straight to our customers.

Our Representative Office in Jida, Zhuhai, China now has a vacancy for the above mentioned position, reporting to our Deputy Managing Director. (Based in Malaysia)
Zhuhai is a beautiful city with attractive living conditions neighbouring Macau and is 1 hours ferry ride away from Hong Kong.

We are ISO9001/14001 certified and work systematically through our local QC's and our Supply Chain department with our suppliers to make sure that orders will be shipped on time and in agreed quality.

We are in a period of exceptional growth.

The work entails

- ✓ Taking full responsibility for our supply chain / sourcing and its positive development
- ✓ Setting strategies and objectives for the work within the department including sourcing, supplier development, logistics and business administration
- ✓ Ensuring that every step of the process is functioning effectively to avoid costly delays and lost sales opportunities.
- ✓ Decide on the most optimum purchase/procurement matrix in cooperation with the Quality Manager
- ✓ Continuously search for and evaluate Cost Reduction and Process Improvement potentials
- ✓ Supplier Relationship development and negotiations based on a vision to come to a Partnership Relation with joint improvement processes, open costing, lean manufacturing and win-win as a result.
- ✓ Contributing to further development of our in-house designed business administration system BizMas, concerning the functions for the department
- ✓ Being the Team Leader for 6-10 persons within Purchase and Business Administration and to train, develop, mentor and assist them.
- ✓ Working closely with the Quality Manager and the local QC's to make sure Customer Satisfaction is achieved and long term growth for the company is assured.
- ✓ Contributing in the Management team towards the common goals of the company
- ✓ Extensive travelling within Asia

Suitable candidates should have

- ✓ Thorough higher education, experience and interest within Supply Chain Management, Procurement/Purchasing and various Production Technologies preferably within the Furniture or wood related industries.
- ✓ SCOR-P or SCOR-S Certificate or equivalent is a plus.
- ✓ Perfect oral and written English and excellent communication skills. Mandarin, Vietnamese or other Asian languages a plus.
- ✓ Broad knowledge of doing business in Asia
- ✓ Passion for process oriented work methods, identifying improvement potentials, putting them in place and for doing business
- ✓ Ability to work effectively as a Team Leader interfacing at all levels within the organization as well as with customers
- ✓ Ability to prioritize and manage multiple deadline-driven tasks/projects in a fast paced environment
- ✓ Strong organizational skills and attention to detail
